

Good news! Our Centre's lunch meal program is back - starting Monday, February 7th. Plexiglass partitions have been installed in the dining room to provide enhanced safety during these continuing covid times. With the present cost of food the price of lunch meals has increased one dollar to \$12. for members and \$14. for non-members. It still is a good deal for a nutritious meal consisting of coffee, tea, soup or salad, main meal and dessert all provided with friendly service. Be prepared to show your proof of vaccination.

Several of our activity programs are operational and are being enjoyed by our members. A few others are waiting a little longer before restarting. Please check with the office (250 832-1065) for the latest status of specific activities.

A reminder that at the present time masks are mandatory at the Centre (including while participating in almost all activities) as well as proof of vaccinations.

See you at the Centre!

Your Board of Directors.
